Connection block for multi-sockets	AC11		-	
Spare	AC33/6		Red	

**2. K45 PLATES FOR PROTECTION ELEMENTS**

**Technical specifications:**

- Plate sizes: 45 x 135 mm for elements with DIN and 45 x 45 mm format for protection elements.
- Electrical specifications of sockets: 16A/250V
- IP20

**Standards:**

- Automatic circuit breakers and differentials designed in compliance with Spanish standard UNE 20315 (Schuko sockets) and French standard NF C 61-303 (French sockets).

**Manufacturing material:**

- Halogen-free, fireproof thermoplastic.
- Guarantees non-spreading of flames in the case of fire and low toxicity in the case of smoke emissions due to no halogen content.
